2005 - TODAY

Google's new problem: How accurate is this data?

**Google has this data about
your business:**

Name: Joe's Plumbing

Address: 123 Fake St, Brooklyn, NY

Zip Code: 10001

Phone Number: 212-464-5836

Opening Hours: 9am-5pm

**Google crawls other
directories to confirm your
data is accurate and your
business is trusted**

Name: Joe's Plumbing

Address: 123 Fake St, Brooklyn, NY

Zip Code: 10001

Phone Number: 212-464-5836

Opening Hours: 9am-5pm

The more complete and accurate your data is the more Google trusts your business and the greater visibility you'll have on Google

Name: Joe's Plumbing

Address: 123 Fake St, Brooklyn, NY

Zip Code: 10001

Phone Number: 212-464-5836

Opening Hours: 9am-5pm

If your data is missing or incorrect from a key directory then Google loses trust in your business and this damages your local visibility in search results

Name: Joe's Plumbing

Address: 6 Fake St, Manhattan, NY

Zip Code: 10005

Sites Google uses as trust signals

**Why should you manage
your listing data?**

Improve your visibility in Google

Experts believe that listings make up 10.82% of the overall ranking factors for Google's local pack results

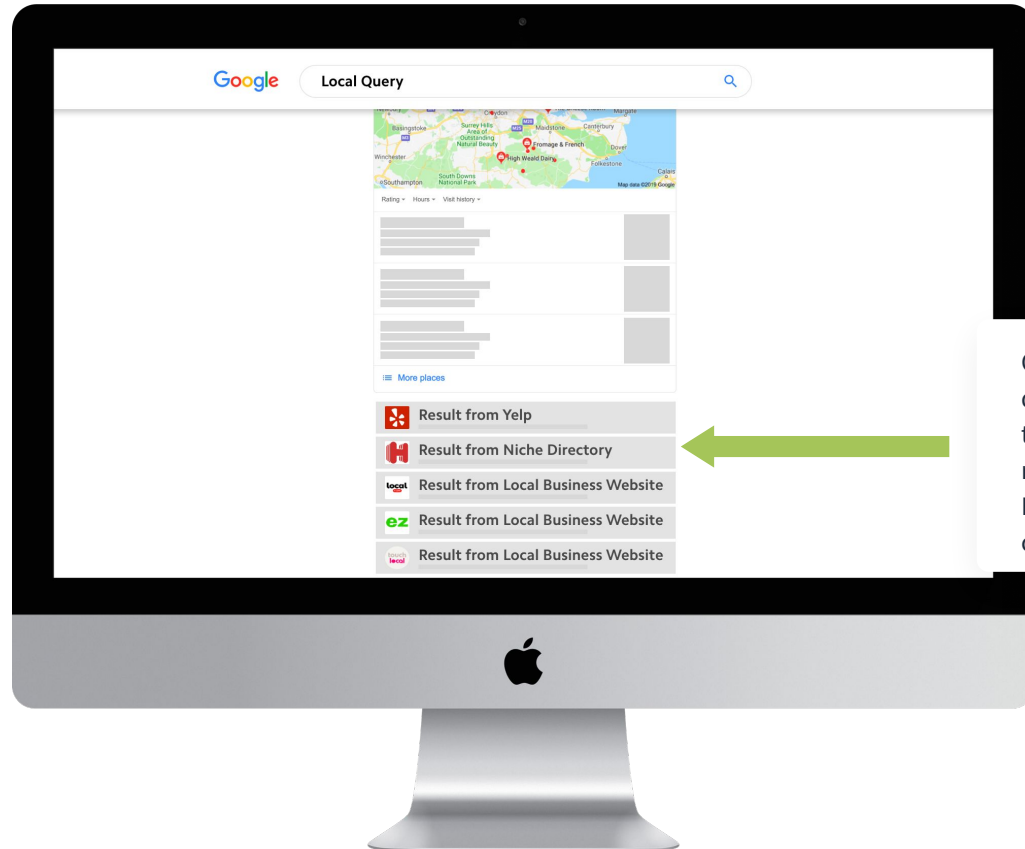

They also have an impact on Google's localized organic results making up 8.41% of overall signals

Improve Referral Traffic From Directories

Google will return directories like Yelp towards the top of their results for local queries. Being listed here is crucial.

Voice Search Optimization

Control the data sources that power voice search on Alexa, Google Home and Siri.

58% of consumers have used voice search to find local business information in the last year alone.

Improve Customer Experience

- 80 % of consumers lose trust in local businesses if they see incorrect or inconsistent contact details or business names
- 93% of consumers say they are frustrated by incorrect information in online directories
- 40% of consumers would give up looking for a local business that they couldn't find because the address was wrong online
